

Covid-19 – February 2021 Update

As of February 10, 2021 we continue to monitor state and local health department guidelines in regards to Summer Camp programs. We are making plans for in-person camp sessions for this summer with camp registration beginning March 1st! We have been able to host some of our fall and winter events, on a limited basis, and are encouraged with the response. As guidance for summer camps take shape we will inform parents of our plans. The health, and safety of our campers, faculty, and staff remain a top priority. During the pandemic we know that planning for the future has been difficult and even as things improve there are still uncertainties. If you register for camp but need to cancel for COVID related reasons you will be able to receive a full refund. If Lake James needs to cancel a program for COVID related reasons you will be fully refunded. We look forward to seeing you this summer and will continue to keep you updated.
